'HOOK_BEAFILTER' => Module::hookExec('beautifilter'),
```

```
433     /* Hooks are voluntary out the initialize array (need those variables already assigned)  
434     self::$smarty->assign(array(  
435         'time' => time(),  
436         'static_token' => Tools::getToken(false),  
437         'token' => Tools::getToken(),  
438         'logo_image_width' => Configuration::get('SHOP_LOGO_WIDTH'),  
439         'logo_image_height' => Configuration::get('SHOP_LOGO_HEIGHT'),  
440         'priceDisplayPrecision' => _PS_PRICE_DISPLAY_PRECISION_,  
441         'content_only' => (int) (Tools::getValue('content_only'))  
442     ));  
443     self::$smarty->assign(array(  
444         'HOOK_HEADER' => Module::hookExec('header'),  
445         'HOOK_TOP' => Module::hookExec('top'),  
446         'HOOK_BEAFILTER' => Module::hookExec('beautifilter'),  
447         'HOOK_LEFT_COLUMN' => Module::hookExec('leftColumn')  
448     ));  
449  
450     if ((Configuration::get('PS_CSS_THEME_CACHE') OR Configuration::get('PS_JS_THEME_CACHE'  
451     {  
452         // CSS compressor management  
453         if (Configuration::get('PS_CSS_THEME_CACHE'))  
454             Tools::cccCss();  
455     }
